Citizens of Montague

“The 10 Commandments”

February 11 2012

Thank you for your time and interest in this matter. It brings great joy to have the opportunity to bring forth a proposal that will be a life changing experience. Montague County has a strong history of Christian beliefs and the citizens of Montague County are proud of those beliefs being strong still to this day. If we continue to allow the removal and/or absence of the acknowledgments of those beliefs in our homes, schools, towns, cities, counties and government we will be aiding in the demise of Christianity itself. Which will not only fail our forefathers, but will fail our future generations? It has been proven from the beginning of time, those who put God first, will be blessed. Jeremiah 29:11 “For I know the plans I have for you declares the Lord, plans to prosper you and not to harm you, plans to give you hope and a future”.

The 10 Commandments are our founding laws, created by God himself. It will be beneficial to have them for all to see. Placing the 10 Commandments in and outside the court house will honor God and by honoring him, this court will be blessed with, knowledge, wisdom, and direction from the Holy Spirit. With your decision to except this proposal, the entire county will be blessed and prosper.

Proposal Details:

- Cost/Labor \$00.00
Sponsored by the Citizens of Montague County
- Professionally framed 10 Commandments (20x24)
- Hung in each court room
- Rock monument of 10 Commandments in court yard at both locations. (Requesting most visible area)
- Time frame upon approval, 90 – 120 business days

The citizens of Montague County are willing to work with whoever is in charge of decorating and landscaping to make sure everyone is happy. We are not here for publicity, we are here to recover and heal our land. We feel that the healing process starts at the court house. The court house is the center of our county. A high traffic area where judgment is made, and where judgment is made, God should dwell.

Thank you for your consideration,

MONTAGUE COUNTY SHERIFF'S OFFICE

PRECINCT REPORTING UPDATE

As important as knowing who is leading in each contest or question is understanding the status of reporting for each precinct. **Clarity ENR** provides this detail through our visually appealing county map display feature. Each election precinct displays their level of reporting **Grey = have not reported, Purple = partially reported, and Green = completely reported.** This enhances the level of detail displayed on your web site minimizing inbound requests for information.

AUTOMATED EMAIL AND (S)FTP DELIVERY

Clarity ENR assists elections directors in distributing the multitude of report requests on election night. The product includes an automated delivery system managed through what we call "Recipients Lists". This feature allows administrators to preload an unlimited number of recipients and their email addresses or secure FTP address prior to each election. Upon completion of each upload, these recipients will automatically receive a CSV or excel file of the most recent update. This feature has been praised by our customers for expediting reporting to their state authorities and local media.

AUTOMATED ELECTION RESULT SUBMISSION

TIME IS PRECIOUS

Clarity ENR automates the capture of election results by precinct and vote type. The workflow would be as follows:

1. Tabulate election results (existing process)
2. Generate Report (existing process)
3. Save Report from your tabulation machine on external media (thumb drive, disk, etc. existing process)
4. Insert external media into a computer with an Internet connection (existing process)
5. Utilize **Clarity ENR** to "browse" for the report
6. Select the report
7. Click "upload", then "process"
8. Review Results, then make them "live"

The screenshot shows the 'Election Night Reporting' web application in Internet Explorer. The browser address bar shows 'http://localhost:ENRAdmin2/AddEditUploadStep1.aspx'. The application header includes 'SOE SOFTWARE' and 'clarity ENR ELECTION NIGHT REPORTING'. The navigation menu has 'HOME', 'ELECTIONS', and 'DEFAULT SETTINGS'. The main content area is titled 'ELECTIONS > MONTGOMERY COUNTY > UPLOAD > VOTE RESULTS'. A sidebar on the left lists 'CURRENT ELECTION', 'DETAILS', 'RECIPIENTS', and 'UPLOAD RESULTS'. The main form area is titled '*Required Fields' and contains the following fields:

At the bottom of the browser window, the status bar shows 'Done', 'Internet', and '100%' zoom level.

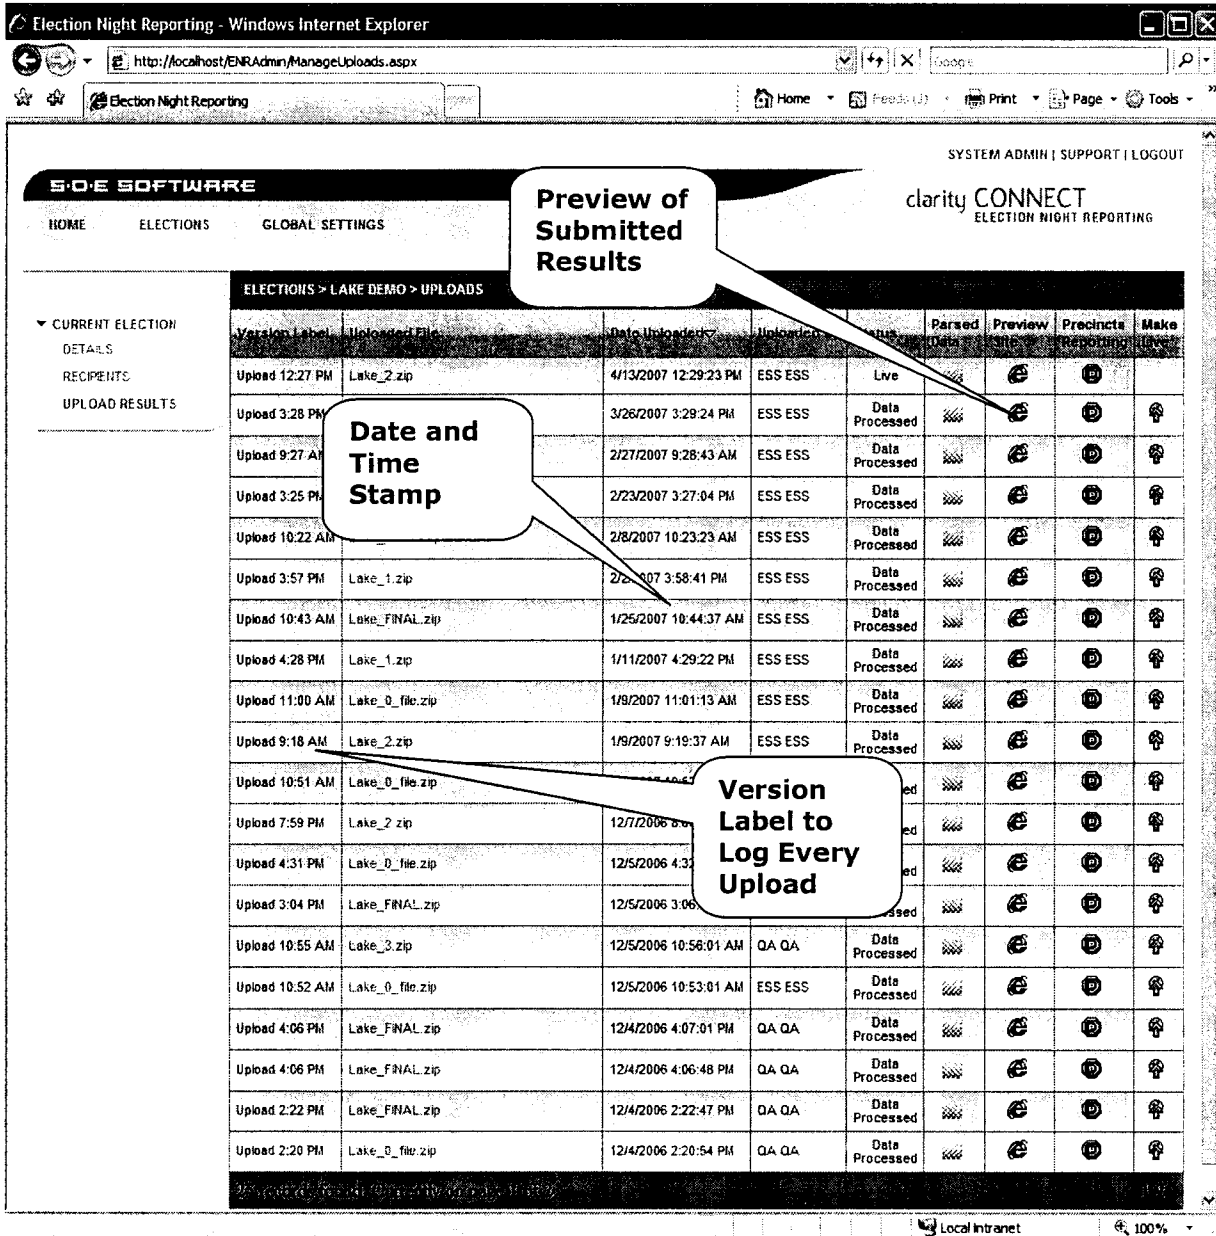

indicate the status of tabulation and each contest by precinct

Steps 3-8 above should average less than a minute for each set of results made public (web site updates, and recipients receive the latest results). There is no limit to the number of times this process can be conducted on election night.

DOCUMENTATION

UPLOAD HISTORY

Election night brings multiple uploads of results. Maintaining an accurate history of when and who uploaded results is critical. Clarity ENR provides an audit trail of every upload providing opportunities to review information prior to making "live".

The screenshot shows a web browser window titled "Election Night Reporting - Windows Internet Explorer" with the URL "http://localhost/ENRAdmin/ManageUploads.aspx". The application header includes "SOE SOFTWARE" and "clarity CONNECT ELECTION NIGHT REPORTING". The navigation menu has "HOME", "ELECTIONS", and "GLOBAL SETTINGS". The main content area is titled "ELECTIONS > LAKE DEMO > UPLOADS".

On the left, there is a sidebar with "CURRENT ELECTION" expanded, showing "DETAILS", "RECIPIENTS", and "UPLOAD RESULTS".

The main table lists uploads with the following columns: Version Label, Uploaded File, Date Uploaded, Uploaded By, Status, Parsed Data, Preview, Precincts Reporting, and Make Live. Callouts highlight specific features: "Preview of Submitted Results" points to the Preview column, "Date and Time Stamp" points to the Date Uploaded column, and "Version Label to Log Every Upload" points to the Version Label column.

SCALABLE & REDUNDANT HOSTING

Following the latest Federal guidelines, industry best practices and standards, the Clarity Suite of Products is securely hosted in the "cloud". This means there will be no impact to a client's Infrastructure. Your office will not be responsible for supporting or maintaining any application software and/or source code. This responsibility lies solely with SOE Software.

Our infrastructure is designed to provide redundancy for key components. Redundant Internet connections are load balanced by redundant network load balancers. All servers are connected to redundant network switches. The incoming web traffic is load balanced across multiple web servers. Those web servers are serviced by a multiple node file server cluster and a multiple node database server cluster. File level backups are performed nightly to a local disk repository for quick restores.

Our current architecture affords us nearly unlimited scalability. Bandwidth scale to accommodate increased traffic. We can also add additional web servers "on the fly", to handle all additional traffic load. We can upgrade file and/or database server size as load dictates. Application security is handled by Secure Socket Layer for appropriate web sites and Secure File Transfer Protocol where appropriate.

The following network diagram is a logical view of SOE Software's "cloud" infrastructure. This is a consolidated view for representation purposes only. This DOES NOT depict all of the servers within our environment.

The Clarity Suite of Products is a web-based solution which can be accessed from any Internet connected computer. It is built using state-of-the-art Microsoft development technologies, and Open Source technologies. Our solution is built with a multi-tiered, object oriented architecture which separates the higher level user-interface code from the underlying project class definitions and database access libraries. This architecture allows SOE's development team to remain flexible and easily make changes to customize new features at the request of their customers.

ORDER GRANTING PERMIT AND RIGHT-OF-WAY TO CONSTRUCT GAS PIPELINE

STATE OF TEXAS X EOG RESOURCES, INC.
COUNTY OF MONTAGUE X

Now, on this the 11th day FEBRUARY, 2013, at a regular Term and Session of the Commissioner's Court of Montague County, Texas, can on to be considered the application of EOG RESOURCES, INC. for a permit and right-of-way to lay, construct, maintain, operate a ROAD CROSSING on FENOGLIO ROAD located in Precinct #4 of the County of Montague, State of Texas, and the court having considered such application and is here referred to and made a part hereof, and having determined that the permit and right-of-way for such pipeline should be granted, it is accordingly ordered by the Court:

- 1. That the County of Montague, State of Texas, does hereby grant the right, privilege and right-of-way to EOG RESOURCES, INC., to lay, construct, maintain, operate a pipeline along, over, across or under the public roads, streets, alleyways of the County of Montague, State of Texas.
2. That such pipeline shall be so buried, cased, covered, constructed and maintained as not to interfere with the use and occupancy of such roads by public. Said pipeline shall be buried 3 feet below bar ditches.
3. That any adjustments of said pipeline required for any State Farm to Market Road or any other improved road would be at 100 per cent cost to EOG RESOURCES, INC.,
4. That all the rights, privileges and right-of-way herein above mentioned are by this order duly vested in said EOG RESOURCES, INC., its successors and assigns, without further grant or procedure.
