

Supplemental Watershed Agreement No. VII

For Denton Creek Watershed
of the Trinity River Watershed
Cooke, Denton, Montague, Tarrant, and Wise Counties, Texas

By

Exchange of Correspondence

Since the original watershed agreement became effective on October 18, 1956, it has become necessary to modify that agreement.

The Denton Creek Watershed will benefit from Wise County Water Control and Improvement District No. 1 assisting Wise Soil and Water Conservation District and Wise County with operation and maintenance activities on all works of improvement and any land rights issues affecting the Denton Creek Watershed project, in Wise County. The Wise County WCID No. 1 agrees to become a sponsor of the watershed project. The following are current sponsoring local organizations (SLO):

Dalworth Soil and Water Conservation District
Denton County Soil and Water Conservation District
Upper Elm-Red Soil and Water Conservation District
Wise Soil and Water Conservation District
Denton County Commissioners Court
Montague County Commissioners Court
Wise County Commissioners Court
City of Decatur, Texas

Operation and Maintenance agreements were previously executed and are currently in force between the Sponsors and the Natural Resources Conservation Service (Formerly the Soil Conservation Service), and do not need to be changed.

The Sponsors hereby agree to add the Wise County WCID No. 1 as a SLO of the watershed.

All other terms, conditions, and stipulations of the Watershed Work Plan Agreement, as supplemented, and of the Operation and Maintenance Agreement remain the same and are agreed to.
