4. Remedies

Remedies for defaults under this LPAFA shall be made as described in the Master Agreement, without exception.

5. Scope of Work

reimbursed with federal or state funds for the cost of required utility work. The Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, the Local Government shall provide, at the State's request, a certification stating that the Local Government has completed the adjustment of all utilities that must be adjusted before construction is completed.

8. Environmental Assessment and Mitigation

Development of the Project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.

- A. The State is responsible for the identification and assessment of any environmental problems associated with the development of the Project governed by this LPAFA.
- B. Cost participation in environmental assessment and remediation work shall be paid by the parties in the same ratio as construction costs and will be included in the construction costs identified in Attachment D, Estimate of Direct Costs.
- C. The State is responsible for providing any public meetings or public hearings required for development of the environmental assessment. The Local Government does not need to provide certifications to the State concerning this matter.

13. Local Project Sources and Uses of Funds

- A. A Project Cost Estimate is provided in Attachment D, Estimate of Direct Costs.
- B. A source of funds estimate is also provided in Attachment D. Attachment D shows the estimated direct preliminary engineering, construction engineering, and construction costs for the Project in total and by the Local Government.
- C. The Local Government participation is based upon the State's estimate of the eligible work at the time this LPAFA is executed and will not be adjusted during construction except as needed to include any Project cost item or portion of a cost item ineligible for state or federal participation. In addition to its share of estimated direct engineering and construction costs, the Local Government is responsible for the direct cost of any project cost item or portion of a cost item that is not eligible for federal participation under the federal HBRRP. The Local Government is also responsible for any cost resulting from changes made at the request of the Local Government. The State and the Federal Government will not reimburse the Local Government for any work performed before federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information.
- D. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- E. After execution of this LPAFA, but thirty (30) days prior to the performance of any work by the State, the Local Government shall remit to the State the amount specified in Attachment D as the local contribution for preliminary engineering. The Local Government will pay, at a minimum, its funding share for this estimated cost of preliminary engineering.
- F. Forty-five (45) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs and any other costs owed.
- G. If, at the completion or termination of the Project, the State determines that additional funding is required by the Local Government, the State shall notify the

- Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- H. Whenever funds are paid by the Local Government to the State under this LPAFA, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation". The check or warrant shall be deposited by the State and managed by the State. The funds may only be applied to the State Project.
 - I. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.
 - J. The State will not pay interest on any funds provided by the Local Government.
 - K. The Local Government funding participation responsibilities include Project direct costs only, except when the Project is terminated before completion at the request of the Local Government as addressed in the Termination provision of this LPAFA.
 - L. The amounts shown on Attachment D are estimates only. If actual costs exceed the estimates, this shall be considered a fixed price agreement, and no additional funding shall be required of the Local Government except to the extent that the additional costs result from changes made at the request of the Local Government or to the extent that the additional costs are not eligible for federal participation under the federal HBRRP. If actual costs are less than the estimates, Local Government participation shall be recalculated based on actual costs. If the recalculation results in a reduction in participation by the Local Government, the State shall pay the difference to the Local Government upon completion of the Project.
 - M. Under the provisions of Texas Transportation Code Section 222.053 certain counties qualify as Economically Disadvantaged Counties (EDC) in comparison to other counties in the state as below average per capita property value, below average per capita income, and above average unemployment, for certain years. If applicable, in consideration of such EDC status that may be applicable for the Project, the required local match fund participation has been adjusted to NA percent (0%).
 - N. The State will not execute the contract for the construction of a Project until the required funding has been made available by the Local Government in accordance with this LPAFA.
 - O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit

or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

- P. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

14. Performance by Local Government of Equivalent-Match Projects (EMP) in Return for Waiver of Local Match Participation Funding on Participation-Waived Projects (PWP)

- A. **Applicability.** If a request for waiver has been received and approved by the State's District Engineer, then the required ten percent matching fund participation or percent as adjusted for EDC consideration, as shown in Attachment D, Estimate of Direct Costs, but excluding ineligible costs under the bridge program, is waived. This waiver is based on the commitment of the Local Government to spend an equivalent amount of funds for structural or safety improvement on "other" bridge structures and other conditions as specified in 43 TAC Section 15.55(d). If a waiver has been granted, the Project shall be defined to be a PWP and the work on the "other" bridge structures that will be improved by the Local Government shall be defined to be the EMPs. Attachment C to this LPAFA shows a list of EMPs under this LPAFA.
- B. **Project Cost Estimate for PWP.** Attachment D to this LPAFA shows the estimated direct preliminary engineering, construction engineering, and construction costs for the PWP in total and local match fund participation being waived or partially waived.
- C. **Credit against EMP Work.** Any local match fund participation that has already been paid, or which the Local Government is agreeable to paying to the State, will be credited against EMP work to be performed by the Local Government. If applicable, this credit will be reflected in Attachment D to this LPAFA.
- D. **Responsibilities of the Local Government on EMPs**
1. The Local Government shall be responsible for all engineering and construction, related costs, and compliance with all applicable state and federal environmental regulations and permitting requirements.
 2. The structural or safety improvement work on the EMPs shall be performed subsequent to the final execution of this LPAFA but within three (3) calendar years after the earliest contract award of the related PWP.
 3. Written documentation, suitable for audit, of the structural or safety improvement work completed on the EMPs shall be kept on file by the Local Government for four (4) years after completion of work or claims, lawsuits, or audits related to

those items, whichever is longer. A notice of completion of work on the EMPs shall be delivered to the State's District Engineer no later than thirty (30) calendar days after work is completed on the EMPs. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

4. Failure by the Local Government to adequately complete the EMPs within the stated three-year period shall result in the Local Government being excluded from receiving such waivers for a minimum of five (5) years.
- E. Funding of Ineligible or Additional Work Not Waived. Regardless of any waiver of eligible program costs, the Local Government shall pay the State one-hundred percent (100%) of the cost of any PWP item or portion of a cost item that is not eligible for federal or state participation, and one-hundred percent (100%) of the costs resulting from additional work on the PWP performed solely at the request of the Local Government. If the ineligible or additional work is preliminary engineering, the payment shall be made at least thirty (30) days prior to the beginning of preliminary engineering work on the PWP. If the ineligible or additional work is for construction or construction engineering, the payment shall be made at least forty-five (45) days prior to the date set for receipt of bids for construction of the PWP.

AGREEMENT

1. Period of this Agreement

The period of this LPAFA is as stated in the Master Agreement, without exception.

2. Termination of this Agreement

Termination of this LPAFA shall be under the conditions as stated in the Master Agreement. The LPAFA may be terminated by the State if the project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds.

3. Amendments

Amendments to this LPAFA shall be made as described in the Master Agreement, without exception.

4. Remedies

Remedies for defaults under this LPAFA shall be made as described in the Master Agreement, without exception.

5. Scope of Work

The scope of work for this LPAFA is the replacement or rehabilitation of the bridges identified in the recitals of this LPAFA. This replacement or rehabilitation shall be accomplished in the manner described in the plans, specifications, and estimates developed in accordance with this LPAFA and which are incorporated in this agreement by reference.

6. Right of Way and Real Property

- A. The Local Government is responsible for the provision and acquisition of all necessary right of way and will not be reimbursed with federal or state funds for the required right of way.
- B. The Local Government authorizes the State, its consultant, contractor, or other designated representative to enter the sites of these bridges and adjacent right of way or relocation right of way to perform surveys, inspections, construction, and other activities necessary to replace or rehabilitate these bridges and approaches.

7. Adjustment of Utilities

The Local Government shall be responsible for the adjustment, removal, or relocation of utility facilities in accordance with applicable state laws, regulations, rules, policies, and procedures, including any cost to the State of a delay resulting from the Local Government's failure to ensure that utility facilities are adjusted, removed, or relocated before the scheduled beginning of construction. reimbursed with federal or state funds for the cost of required utility work. The Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, the Local Government shall provide, at the State's request, a certification stating that the Local Government has completed the adjustment of all utilities that must be adjusted before construction is completed.

8. Environmental Assessment and Mitigation

Development of the Project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.

- A. The State is responsible for the identification and assessment of any environmental problems associated with the development of the Project governed by this LPAFA.
- B. Cost participation in environmental assessment and remediation work shall be paid by the parties in the same ratio as construction costs and will be included in the construction costs identified in Attachment D, Estimate of Direct Costs.
- C. The State is responsible for providing any public meetings or public hearings required for development of the environmental assessment. The Local Government does not need to provide certifications to the State concerning this matter.

13. Local Project Sources and Uses of Funds

- A. A Project Cost Estimate is provided in Attachment D, Estimate of Direct Costs.
- B. A source of funds estimate is also provided in Attachment D. Attachment D shows the estimated direct preliminary engineering, construction engineering, and construction costs for the Project in total and by the Local Government.
- C. The Local Government participation is based upon the State's estimate of the eligible work at the time this LPAFA is executed and will not be adjusted during construction except as needed to include any Project cost item or portion of a cost item ineligible for state or federal participation. In addition to its share of estimated direct engineering and construction costs, the Local Government is responsible for the direct cost of any project cost item or portion of a cost item that is not eligible for federal participation under the federal HBRRP. The Local Government is also responsible for any cost resulting from changes made at the request of the Local Government. The State and the Federal Government will not reimburse the Local Government for any work performed before federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information.
- D. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- E. After execution of this LPAFA, but thirty (30) days prior to the performance of any work by the State, the Local Government shall remit to the State the amount specified in Attachment D as the local contribution for preliminary engineering. The Local Government will pay, at a minimum, its funding share for this estimated cost of preliminary engineering.
- F. Forty-five (45) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs and any other costs owed.
- G. If, at the completion or termination of the Project, the State determines that additional funding is required by the Local Government, the State shall notify the

- Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- H. Whenever funds are paid by the Local Government to the State under this LPAFA, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation". The check or warrant shall be deposited by the State and managed by the State. The funds may only be applied to the State Project.
 - I. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.
 - J. The State will not pay interest on any funds provided by the Local Government.
 - K. The Local Government funding participation responsibilities include Project direct costs only, except when the Project is terminated before completion at the request of the Local Government as addressed in the Termination provision of this LPAFA.
 - L. The amounts shown on Attachment D are estimates only. If actual costs exceed the estimates, this shall be considered a fixed price agreement, and no additional funding shall be required of the Local Government except to the extent that the additional costs result from changes made at the request of the Local Government or to the extent that the additional costs are not eligible for federal participation under the federal HBRRP. If actual costs are less than the estimates, Local Government participation shall be recalculated based on actual costs. If the recalculation results in a reduction in participation by the Local Government, the State shall pay the difference to the Local Government upon completion of the Project.
 - M. Under the provisions of Texas Transportation Code Section 222.053 certain counties qualify as Economically Disadvantaged Counties (EDC) in comparison to other counties in the state as below average per capita property value, below average per capita income, and above average unemployment, for certain years. If applicable, in consideration of such EDC status that may be applicable for the Project, the required local match fund participation has been adjusted to NA percent (0%).
 - N. The State will not execute the contract for the construction of a Project until the required funding has been made available by the Local Government in accordance with this LPAFA.
 - O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

- P. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

14. Performance by Local Government of Equivalent-Match Projects (EMP) in Return for Waiver of Local Match Participation Funding on Participation-Waived Projects (PWP)

- A. Applicability. If a request for waiver has been received and approved by the State's District Engineer, then the required ten percent matching fund participation or percent as adjusted for EDC consideration, as shown in Attachment D, Estimate of Direct Costs, but excluding ineligible costs under the bridge program, is waived. This waiver is based on the commitment of the Local Government to spend an equivalent amount of funds for structural or safety improvement on "other" bridge structures and other conditions as specified in 43 TAC Section 15.55(d). If a waiver has been granted, the Project shall be defined to be a PWP and the work on the "other" bridge structures that will be improved by the Local Government shall be defined to be the EMPs. Attachment C to this LPAFA shows a list of EMPs under this LPAFA.
- B. Project Cost Estimate for PWP. Attachment D to this LPAFA shows the estimated direct preliminary engineering, construction engineering, and construction costs for the PWP in total and local match fund participation being waived or partially waived.
- C. Credit against EMP Work. Any local match fund participation that has already been paid, or which the Local Government is agreeable to paying to the State, will be credited against EMP work to be performed by the Local Government. If applicable, this credit will be reflected in Attachment D to this LPAFA.
- D. Responsibilities of the Local Government on EMPs
1. The Local Government shall be responsible for all engineering and construction, related costs, and compliance with all applicable state and federal environmental regulations and permitting requirements.
 2. The structural or safety improvement work on the EMPs shall be performed subsequent to the final execution of this LPAFA but within three (3) calendar years after the earliest contract award of the related PWP.
 3. Written documentation, suitable for audit, of the structural or safety improvement work completed on the EMPs shall be kept on file by the Local Government for four (4) years after completion of work or claims, lawsuits, or audits related to

those items, whichever is longer. A notice of completion of work on the EMPs shall be delivered to the State's District Engineer no later than thirty (30) calendar days after work is completed on the EMPs. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

4. Failure by the Local Government to adequately complete the EMPs within the stated three-year period shall result in the Local Government being excluded from receiving such waivers for a minimum of five (5) years.
- E. Funding of Ineligible or Additional Work Not Waived. Regardless of any waiver of eligible program costs, the Local Government shall pay the State one-hundred percent (100%) of the cost of any PWP item or portion of a cost item that is not eligible for federal or state participation, and one-hundred percent (100%) of the costs resulting from additional work on the PWP performed solely at the request of the Local Government. If the ineligible or additional work is preliminary engineering, the payment shall be made at least thirty (30) days prior to the beginning of preliminary engineering work on the PWP. If the ineligible or additional work is for construction or construction engineering, the payment shall be made at least forty-five (45) days prior to the date set for receipt of bids for construction of the PWP.

1. Period of this Agreement

The period of this LPAFA is as stated in the Master Agreement, without exception.

2. Termination of this Agreement

Termination of this LPAFA shall be under the conditions as stated in the Master Agreement. The LPAFA may be terminated by the State if the project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds.

3. Amendments

Amendments to this LPAFA shall be made as described in the Master Agreement, without exception.

4. Remedies

Remedies for defaults under this LPAFA shall be made as described in the Master Agreement, without exception.

5. Scope of Work

The scope of work for this LPAFA is the replacement or rehabilitation of the bridges identified in the recitals of this LPAFA. This replacement or rehabilitation shall be accomplished in the manner described in the plans, specifications, and estimates developed in accordance with this LPAFA and which are incorporated in this agreement by reference.

6. Right of Way and Real Property

- A. The Local Government is responsible for the provision and acquisition of all necessary right of way and will not be reimbursed with federal or state funds for the required right of way.
- B. The Local Government authorizes the State, its consultant, contractor, or other designated representative to enter the sites of these bridges and adjacent right of way or relocation right of way to perform surveys, inspections, construction, and other activities necessary to replace or rehabilitate these bridges and approaches.

reimbursed with federal or state funds for the cost of required utility work. The Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, the Local Government shall provide, at the State's request, a certification stating that the Local Government has completed the adjustment of all utilities that must be adjusted before construction is completed.

8. Environmental Assessment and Mitigation

Development of the Project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.

- A. The State is responsible for the identification and assessment of any environmental problems associated with the development of the Project governed by this LPAFA.
- B. Cost participation in environmental assessment and remediation work shall be paid by the parties in the same ratio as construction costs and will be included in the construction costs identified in Attachment D, Estimate of Direct Costs.
- C. The State is responsible for providing any public meetings or public hearings required for development of the environmental assessment. The Local Government does not need to provide certifications to the State concerning this matter.

13. Local Project Sources and Uses of Funds

- A. A Project Cost Estimate is provided in Attachment D, Estimate of Direct Costs.
- B. A source of funds estimate is also provided in Attachment D. Attachment D shows the estimated direct preliminary engineering, construction engineering, and construction costs for the Project in total and by the Local Government.
- C. The Local Government participation is based upon the State's estimate of the eligible work at the time this LPAFA is executed and will not be adjusted during construction except as needed to include any Project cost item or portion of a cost item ineligible for state or federal participation. In addition to its share of estimated direct engineering and construction costs, the Local Government is responsible for the direct cost of any project cost item or portion of a cost item that is not eligible for federal participation under the federal HBRRP. The Local Government is also responsible for any cost resulting from changes made at the request of the Local Government. The State and the Federal Government will not reimburse the Local Government for any work performed before federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information.
- D. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- E. After execution of this LPAFA, but thirty (30) days prior to the performance of any work by the State, the Local Government shall remit to the State the amount specified in Attachment D as the local contribution for preliminary engineering. The Local Government will pay, at a minimum, its funding share for this estimated cost of preliminary engineering.
- F. Forty-five (45) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs and any other costs owed.
- G. If, at the completion or termination of the Project, the State determines that additional funding is required by the Local Government, the State shall notify the

- Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- H. Whenever funds are paid by the Local Government to the State under this LPAFA, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation". The check or warrant shall be deposited by the State and managed by the State. The funds may only be applied to the State Project.
 - I. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.
 - J. The State will not pay interest on any funds provided by the Local Government.
 - K. The Local Government funding participation responsibilities include Project direct costs only, except when the Project is terminated before completion at the request of the Local Government as addressed in the Termination provision of this LPAFA.
 - L. The amounts shown on Attachment D are estimates only. If actual costs exceed the estimates, this shall be considered a fixed price agreement, and no additional funding shall be required of the Local Government except to the extent that the additional costs result from changes made at the request of the Local Government or to the extent that the additional costs are not eligible for federal participation under the federal HBRRP. If actual costs are less than the estimates, Local Government participation shall be recalculated based on actual costs. If the recalculation results in a reduction in participation by the Local Government, the State shall pay the difference to the Local Government upon completion of the Project.
 - M. Under the provisions of Texas Transportation Code Section 222.053 certain counties qualify as Economically Disadvantaged Counties (EDC) in comparison to other counties in the state as below average per capita property value, below average per capita income, and above average unemployment, for certain years. If applicable, in consideration of such EDC status that may be applicable for the Project, the required local match fund participation has been adjusted to NA percent (0%).
 - N. The State will not execute the contract for the construction of a Project until the required funding has been made available by the Local Government in accordance with this LPAFA.
 - O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

- P. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

14. Performance by Local Government of Equivalent-Match Projects (EMP) in Return for Waiver of Local Match Participation Funding on Participation-Waived Projects (PWP)

- A. Applicability. If a request for waiver has been received and approved by the State's District Engineer, then the required ten percent matching fund participation or percent as adjusted for EDC consideration, as shown in Attachment D, Estimate of Direct Costs, but excluding ineligible costs under the bridge program, is waived. This waiver is based on the commitment of the Local Government to spend an equivalent amount of funds for structural or safety improvement on "other" bridge structures and other conditions as specified in 43 TAC Section 15.55(d). If a waiver has been granted, the Project shall be defined to be a PWP and the work on the "other" bridge structures that will be improved by the Local Government shall be defined to be the EMPs. Attachment C to this LPAFA shows a list of EMPs under this LPAFA.
- B. Project Cost Estimate for PWP. Attachment D to this LPAFA shows the estimated direct preliminary engineering, construction engineering, and construction costs for the PWP in total and local match fund participation being waived or partially waived.
- C. Credit against EMP Work. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw.Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
